6<sup>th</sup> September 2011

Dear Rebecca and Ben

I would like to thank you for your professional services in developing our new website. Your background in the Marine Industry was invaluable in creating our personalised site. While working together during the implementation I developed an appreciation for your expertise.

Your professional approach and website creation skills exceeded my expectations and it was a pleasure to do business with you.

Steber International value your professional services and look forward to working with you in the future.

  
Colin Steber
